+91-6264411877 — sr9960920@gmail.com — <https://www.linkedin.com/in/shubham-rajput-a9165633b/>

Summary

Motivated Computer Science student with strong fundamentals in programming and problem-solving. Hands-on experience in building Python-based applications such as voice assistants and utility tools.

Education

M.C.A.

UNIVERSITY OF HYDERABAD, INDIA

B.C.A.

DR APJ ABDUL KALAM UNIVERSITY, INDIA

Class 12th

SARVODAYA PUBLIC H S SCHOOL

Skills

- **Languages:** Python, C++, Java , C
- **Tools:** Git, VS Code
- **Concepts:** Data Structures, OOP, Basic Algorithms

Projects

Smart Attendance System (Python + Face Recognition)

- Developed an automated attendance system using face recognition technology
- Used OpenCV and face detection algorithms to identify individuals
- Stored attendance records in real-time for accuracy and efficiency
- Reduced manual effort and improved tracking reliability

Voice Assistant using Python

- Developed a voice assistant capable of recognizing speech and executing commands
- Integrated speech recognition and text-to-speech modules
- Added features like Google search and basic automation tasks

QR Code Generator

- Built a Python application to generate QR codes from user input
- Used libraries such as `qrcode` and `PIL`

Python Practice Projects

- Solved multiple logic-based problems including prime numbers, list operations, and algorithms
- Strengthened problem-solving and coding efficiency

Experience

Fresher

- Actively learning and building projects in Python and software development

Achievements

- Practiced coding problems regularly to improve logical thinking
